

Yanmar Genuine touch-up-paint restores the beauty of your product by blending into your original finish.

Aerosol

Colour: *Yanmar Ecole Silver Metallic*
Application: *Yanmar pleasure craft engines up to 500HP, Yanmar gearboxes, ZT350, SD series from serial number: SD20 (1881-08), SD50 (1403-08), SD50-4T (T001-09)*

In 2011 the primer and clear varnish will be introduced.

1. AEROSOL

Container size: 457ml
Parts code:
PAINT-001

The aerosol can offers a superior finish quality, "invisibly" blending touch-up paint into the original coating. Just shake and spray - no air source required. Aerosols are ideal for recessed and other hard-to-reach areas.

2. BRUSH-IN-CAP BOTTLE

Container size: 17.7ml
Parts code:
PAINT-002

The brush-in-cap bottle comes in a clear container for quick colour recognition. The tapered insert acts as a brush wiper to prevent paint build-up at the neck. It also serves as a spill stopper if the bottle is tipped over and the portable size makes it easy to carry in your pocket for quick touch-ups.

Brush-in-cap bottle
